SPONSORSHIP
PACKET

A LETTER FROM US!

Dear Prospective Sponsor,

We are a 14-person FIRST Tech Challenge (FTC) team based at the South Carolina Governor's School for Science and Mathematics (GSSM) in Hartsville, SC. GSSM is a two year STEM-focused residential high school with students from around the state. As a boarding school, our school is very different from others; students live, learn and work on academics and extracurriculars in an immersive environment. One such extracurricular activity is our FTC robotics team: The Golden Dragons. FTC is a robotics competition in which we design, build, and program robots to compete for region, state, and even world titles. However, we need funds to do this and we hope that you can help us finance our team.

Our team's mission is to raise the skill ceiling in South Carolina, and promote learning through FTC. Last season, we were the winning alliance partner for the South Carolina FTC State Championship, which let us represent South Carolina at the World Championship. We were also the first SC team to attend the Multinational Tech Invitational (MTI) hosted at Johns Hopkins University and Chicago Robotics Invitational (CRI), two invite-only, premier events. Additionally, we were the first ever South Carolina team to attend, win and receive 1st CONTROL award (given to teams with excellences in software) at the Canadian Rockies Premier event, putting South Carolina on the map globally! Last season, at the SC State FTC Championship, we won the 1st INSPIRE Award. This is the most prestigious award in FTC, given to a team who is a top contender in many other award categories and who is a strong ambassador for FIRST programs. This award shows not just our technical skills, but our commitment to representing the FIRST community outside of competitions by encouraging and educating others to explore robotics and STEM.

Over the season we plan to build, design, and innovate on our robot, requiring strong collaboration and technical skills. The current challenge, BIOBUZZ, provides opportunities for each team members to assume new responsibilities by creating a robot that is able to score points by launching different sized balls into a goal. This season, we are focused on establishing an environment that actively promotes both sustainable individual and collective growth among our members.

TEAM DYNAMICS

At the beginning of this season, we paired groups of new juniors with current seniors to teach them the ropes of FTC through experience and hands-on shadowing. This way, they can learn all of the skills they need for the rest of the season and beyond, so they can train their juniors.

At the start of the season or during summer, our Outreach and PR team cold emails and calls local companies in the Hartsville-Darlington area in request of financial aid for our team. We require a great amount of external funds in order to function properly, as robotics isn't just making a robot, it includes transportation, lodging, part orders, proper nutrition availability, advertisement, filming equipment and team merchandise to represent our team at competitions.

Outside of competitions, our team also does a lot of outreach in communities throughout South Carolina. We have introduced over 1,500+ people to FIRST through these outreach events, doing over 1,000+ hours of outreach in about 8 counties across the state. With your help, we want to scale this to reach at least 12 counties by the end of the season. We also have team Instagram and YouTube accounts where we share photos and videos of our competitions and outreach events. Since we reach people across the state through outreach and social media, we would advertise your company throughout South Carolina if you choose to sponsor us.

AT ITS CORE, GOLDEN DRAGONS IS NOT JUST "ANOTHER ROBOTICS TEAM," WE ARE A GROUP OF LIKE-MINDED FRIENDS THAT PUSH EACH OTHER TO BECOME BETTER AS A TEAM AND HELP OTHERS AROUND US, WHERE IT'S MORE THAN JUST ROBOTS.

GOLDEN DRAGONS

OUR PACKAGES

Our team needs a variety of funds that serve a lot of different purposes (as mentioned previously). Some values that attach to these finances include:

- Transportation, Lodging/Hotels, Food/Nutrition | **\$50,000+ USD**
- Filming Equipment (Microphones, Cameras, Mounts/Tripods) | **\$500 USD**
- Team Merchandise and Accessories (Jerseys, Stickers, Hats) | **\$3,000 USD**
- Handouts/Posters, Advertisements for 772 | **\$1,250 USD**
- Mechanical Parts from Vendors (GoBilda, MiSUMi, Amazon) | **\$15,000 USD**

BENEFIT	SILVER \$100-\$499	BEST VALUE GOLD \$500-\$1,499	PLATINUM \$1,500-\$2,499	MYTHIC \$2,500+

FAREWELL FOR NOW

You can make any monetary donations to our program through our package-tier system by visiting:

<https://scgssm.org/donate> > **Robotics** > **Comment** > **Donation to FTC 772**

Alternatively, you can mail a check to the GSSM Foundation:
(Memo: **Donation to FTC 772**) at 2711 Middleburg Drive, Columbia, SC, 29204.

For any progress updates that our team may have, please visit our website:
<https://ftc772.org/> or our Instagram page: **@goldendragons772**

Additionally, feel free to reach out to us by email at contact@ftc772.org for any questions, concerns, or requests! We thank you for your consideration and look forward to hearing back from you!
